This is a day of being on the land in deep presence; an experiential pilgrimage, exploring the heart of connection with the wild earth. While pilgrimage is often from one place to another, we will end at the very place we begin, celebrating the sacred aspect of the journey itself. We will begin with an introduction to the basic principles of rites of passage and have fun with some somatic practices so that we enter this experience in ceremony, well grounded in our bodies. A large portion of the day will be spent in mindful, solo time on the magical land of Fairfield Osborn Preserve in Sonoma County.
