Council circle is an ancient and modern practice with ancestral roots in diverse cultures. Each voice is equal, each brings a unique gift and so together we find wholeness. We listen deeply to one another and all our relations-the larger community we live with on this earth...the birds, trees, rocks and wind. *Deepening Into The Circle Way* is an opportunity to learn how to create the unique container of council circle; the multi-layered nature of the intentions; the varied forms of council and how you can take this profound practice of connection into your life. Commitment to a four-time series with the same group of people offers a rich, satisfying experience into the profound nature and Mystery of the circle way. Each series will be unique based on the interests of the group- please join one or all!
